II. COOKIES POLICY

Access to this Website may involve the use of cookies. Cookies are small amounts of information stored in the browser used by each user -in the different devices that can be used to navigate- so that the server can read the information that later and only the server that implemented it will read. Cookies make browsing easier and user-friendly, and do not damage the navigation device.

Cookies are automatic procedures for collecting information related to the preferences determined by the user during his visit to the Website in order to recognize him as a User, and to personalize his experience and may also, for example, help to identify and resolve errors.

The information collected through cookies may include the date and time of visits to the Website, the time that has been on the Website and the sites visited just before and after it. However, no cookie will be contacted with the User's phone number or any other means of personal contact. No cookie can access information from the User's hard drive or steal personal information. The only way that the User's private information can be accessed is if the User gives that information to the server.

The cookies that allow to identify a person are considered personal data. Therefore, the Privacy Policy

will apply to them. In this sense, the User's consent will be necessary to use them. This consent based on an authentic choice, offered through an affirmative and positive decision, before the initial documented treatment.

Own cookies

Are those cookies that are sent to the user's computer or device and managed exclusively by Euro Weekly News for the best functioning of the Website. The information that is collected is used to improve the quality of its Content and its experience as a User. These cookies allow the User to be recognized as a regular User of the Website and adapt the content to offer content that suits their preferences.

Third party cookies

They are cookies used and managed by external entities that provide Euro Weekly News with services to improve the Website and the user experience when browsing the Website. The main objective of these cookies are obtaining access statistics and analyzing the navigation information, that is, when the User interacts with the Website.

The information that is obtained refers, for example, to the number of pages visited, the language, the IP address from which the User is accessing, the number of Users that access, the frequency of visits, the visit time, the browser they use, the operator or type of device from which the visit is made. This information is used to improve the Website, and detect new needs to offer Users a Content and / or service customized to their needs. In any case, the information is collected anonymously and web site trend reports are produced without identifying individual users.
